

CAD Drafter Engineer

Location: Pawtucket, RI

Email Inquiries to: jobs.ne@neis.cc

Required to use AutoCAD software to create highly detailed and precise manufacturing shop drawings from architectural plans and specifications. Work closely with in house estimators, project managers and field personnel. Successful candidates should have a strong understanding of wood working materials and manufacturing methods.

Key qualifications and skills:

- 2-3 years minimum related work experience. (Commercial millwork and casework drafting preferred)
- Positive team player with strong work ethic. AutoCAD Release 2010 or higher, with Bluebeam or similar software experience a plus.
- Proven ability to read and interpret Architectural plans and specifications.
- Knowledge of all trades especially finish carpentry and millwork.
- Working knowledge of Windows 7 or later, Microsoft Office Suite, and Adobe Acrobat software helpful.

Competitive salary package includes full benefits and 401k. Please send your resume to: jobs.ne@neis.cc
